

**COSMETIC FACIAL  
ACUPUNCTURE:  
TIME-TESTED BEAUTY  
TREATMENT**

Facial Acupuncture has been increasingly featured in the media as a new effective beauty treatment. It's a safe and natural alternative to more invasive and expensive beauty treatments.

In China royalty have used facial acupuncture since the Sung Dynasty for improving health and beauty.

*Patient Testimonials*

*"Overall, I enjoy facial acupuncture because I feel very relaxed and energized when I leave."*

*"I think it's too early to see the overall outcome, but I can see that my skin is starting to look healthier, in that my facial skin doesn't look as 'dull.' I also like the mask and facial massage because it feels nice and relaxing."*  
— SK, Haverhill

*"I first tried facial acupuncture as a way to help reduce fine lines forming around my eyes and mouth. Then I discovered that if I wasn't balanced /healthy on the inside, then this would reflect on the outside. Having a full-body treatment along with the facial treatment brought me the results I was looking for. Chinese herbs kept the process going in between appointments. I'm very happy with the program—both inside and out!"*  
— DL, Chelmsford
